

# THE KAALCHAKRA

*(Bilingual Digital News Platform + E-Newspaper System)*

---

## 1. Project Overview

**Project Name:** The Kaalchakra

**Type:** Bilingual Digital News Portal + E-Newspaper

**Owner:** (Main Owner – Full Control Required)

Website must be structured similar to:

- The Lallantop
- Dainik Bhaskar
- The Hindu

But with modern, fast, and scalable architecture.

---

## 2. Technical Architecture (Mandatory)

### ◆ Frontend

- Next.js (Latest version)
- Responsive (Mobile First Design)

### ◆ Hosting

- Vercel (Owner email)

### ◆ Code Repository

- GitHub (Owner email)

### ◆ Database

- Supabase / MongoDB (Owner control)

### ◆ Storage

- PDF + Images → Cloud Storage (Owner account)

⚠ All accounts must be created using **Owner's email**.

Developer will be added as collaborator only.

---

### 🌐 3. Core Features

#### ✅ A. Bilingual System (Hindi + English)

Structure example:

/hindi/politics/article-name

/english/politics/article-name

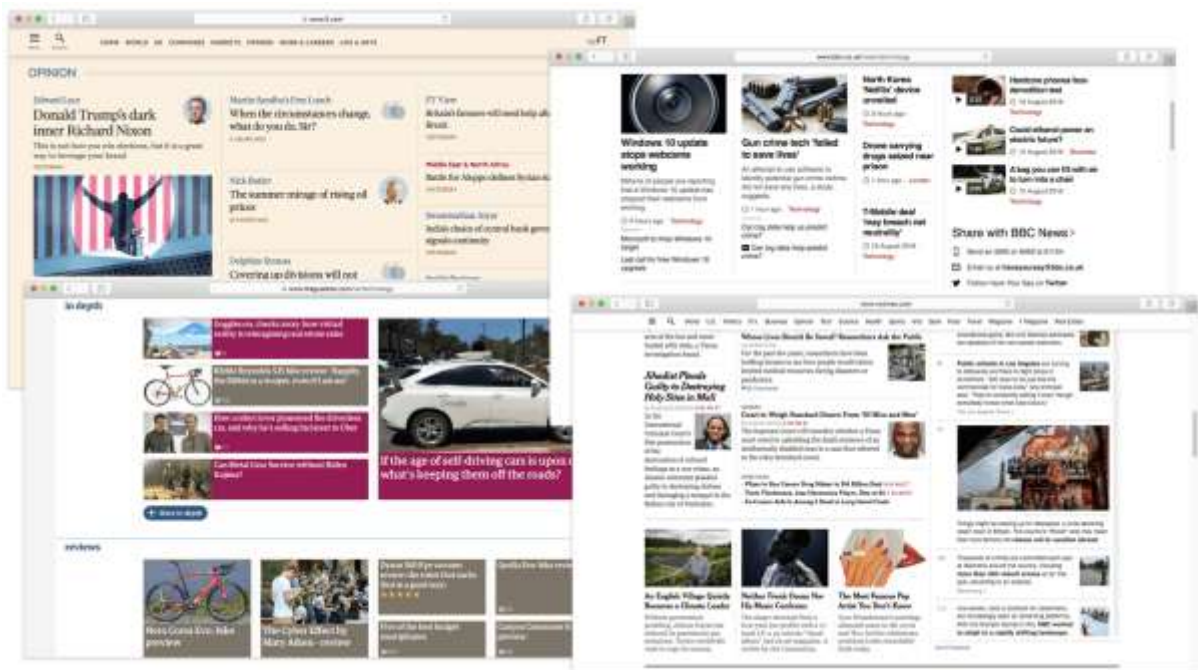

Features:

- Language toggle button
- Separate SEO for Hindi & English
- Same article can have dual versions

---

#### ✅ B. Homepage Layout

## Homepage Sections:

1. Top Navigation Bar (Categories + Search)
2. Hero Section (Top 4–5 Stories)
3. Latest News Section
4. Category-wise Sections
5. Trending News
6. Video Section
7. E-Paper Highlight Section
8. Footer (About, Contact, Privacy Policy)

## ✅ C. Role-Based Login System

### User Roles:

Role	Access
Owner	Full control
Admin	Manage users & categories
Editor	Approve articles

## **Role      Access**

Reporter Submit drafts only

Workflow:

Reporter → Editor Approval → Publish

---

### **D. E-Newspaper (PDF Upload System)**

Features:

- Daily PDF upload option
- Date-wise archive
- Online view (embedded viewer)
- Download button
- Search by date

URL structure:

/epaper/2026-02-21

---

### **E. SEO & Performance**

- Fast loading (under 2 seconds)
  - Clean URL structure
  - Meta title & description editable
  - Sitemap auto generate
  - Google indexing ready
  - Schema markup for News
- 

### **F. Security**

- JWT authentication
- Role-based protection
- Admin dashboard protected
- HTTPS mandatory

---

#### 4. Admin Panel Requirements

Admin dashboard must include:

- Add / Edit / Delete News
- Add Categories
- Upload Images
- Upload PDF
- Manage Users
- SEO settings per article
- Draft & Publish control
- Analytics overview

---

#### 5. Design Requirements

Style reference inspiration from:

- The Lallantop (Bold & engaging)
- Dainik Bhaskar (Clean grid)
- The Hindu (Professional typography)

Design must be:

- Clean
- Modern
- Fast
- Not cluttered
- Mobile responsive

---

#### 6. Future Ready Requirements

- App-ready API structure
- Push notification integration ready
- Subscription model possible in future

- Ad integration support (Google Ads)
- 

## 7. Ownership Rules (Very Important)

1. Domain – Owner controlled (Already done)
2. GitHub – Owner email
3. Vercel – Owner email
4. Database – Owner email
5. Developer only collaborator access

No root access given to developer permanently.

---

## 8. Expected Development Phases

Phase 1 – UI + Homepage

Phase 2 – Article system + Admin

Phase 3 – Bilingual system

Phase 4 – E-Paper system

Phase 5 – Testing & Deployment

Estimated timeline: 4–6 weeks (professional build)

---

## Final Note for Developer

The platform must be scalable for high traffic and future expansion.

Clean code structure, documentation, and proper folder organization required.

---
